

## REMARKS

The "Notice of Drawing Inconsistency with Specification" dated August 17, 2005 indicates that Figure 6 is contained in the Drawings, but not listed in the Brief Description of the Drawings in the Specification.

Note that the original Figure 4 was cancelled by way of prior amendment. This amendment amended the Specification by deleting all original discussion of the original Figure 4, and renumbering the existing Figures 5 and 6 to new Figure 4 and Figure 5, respectively. Consequently, Figures 1A through 5 are described in the present Specification.

The attached Replacement Figures have been amended to conform to the specification. Specifically, the Replacement Figures have been amended by deleting the original Figure 4 on sheet 3/4. Further, the existing "FIG. 5" on sheet 4/4 has been renamed as "FIG. 4". Finally, the existing "FIG. 6" on sheet 4/4 has been renamed as "FIG. 5". By way of these amendments, the Replacement Figures are now fully consistent with the specification.

In view of the above, it is respectfully submitted that the Replacement Drawings place the subject patent application in immediate condition for Issue. Additionally, in an effort to expedite the issuance of the subject patent application, the Applicant kindly invites the Examiner to telephone the Applicant's attorney at (805) 278-8855 if the Examiner has any questions or concerns.

Respectfully submitted,

Lyon & Harr
